

2021 CRT VIRTUAL CONGRESSIONAL FLY-IN

September 21, 2021

Join Other Advocates to Protect CRT

Each year, the Complex Rehab Technology (CRT) community joins together to ask Congress for needed action to protect access to CRT for individuals with disabilities. This year, we're connecting with Capitol Hill via the Zoom conference platform to allow CRT suppliers, manufacturers, clinicians, consumers, and others the opportunity to meet directly with their Members of Congress and share the CRT message.

Why Should You Attend?

Congress is an indispensable ally to protecting access to CRT. Without coming together to share the challenges at hand, Congress will not fully grasp how CRT maximizes independence and protects the health of the individuals who depend on it. Reminding Congress about the importance of appropriate access to CRT and the critical role our industry plays in providing this specialized equipment is a message that needs to be delivered now more than ever. We can't do it without you.

What Are We Asking Congress For?

- To Better Understand the Unique Nature of CRT and Why Access is Important
- To Support the Request for Medicare Coverage of Power Seat Elevation and Standing Systems
- To Take Actions to Protect Needed CRT Funding at the Federal and State Levels
- To Ensure Physical and Occupational Therapists Can Permanently Use Telehealth When Needed

How Can You Join Us?

Visit **www.CRTaccess.com** today for more details and to register. We'll arrange your appointments, match you with others in your state, and provide you with an Advanced Prep Webinar so you feel confident in all of your meetings. **It's important to register by September 1 to ensure we can schedule your Congressional meetings.**
