### **U.S. Rehab Announces Tyler Mahncke as New Vice President**

Waterloo, Iowa—Tyler Mahncke has been promoted to Vice President of U.S. Rehab.

Previously, Mahncke has been the operations and business development manager for U.S. Rehab for the last four years, during which he became a trusted leader in the industry and a valued partner to U.S. members and vendors alike.

"I am humbled and excited to continue my work in the complex rehab technology industry with the great members and vendor partners that we have," said Mahncke. "Our team at U.S. Rehab and VGM & Associates is as strong as it has ever been, and with their support, I look forward to continuing to build programs that benefit our membership and the continued growth of relationships with our great vendor partners."

Mahncke will continue with many of the same responsibilities from his previous role but will be much more involved in contracting, business development and growth, strategic planning, and day-to-day business decisions.

"I am very excited to have worked so closely with Tyler for the last few years and watch him really take charge of his own destiny. He has worked hard to dive into the rehab industry and become an expert in a highly complex industry," said Greg Packer, president of U.S. Rehab. "Tyler deserves a lot of credit for making his path, and I am very excited for him in the future as he moves into a much greater leadership role in the rehab industry as well as VGM and U.S. Rehab."
